Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 has been rejected under 35 U.S.C. 102(b) as being anticipated by Brannen, 971519.

Brannen discloses an arm band comprising a rigid plate (12, 13) having ornamentation (smooth surface) on a surface with at least one lateral recess (the plate has multiple recesses on each side edge of the plate), a springy band (5) rigidly attached to the plate (figure 2) at one end and a u-shaped link (8-11) at the other end of the band to engage the lateral recess.

3. Claims 1-3 rejected under 35 U.S.C. 102(b) as being anticipated by Williams, 3677449.

Williams discloses an arm band (2) comprising a rigid plate (1) consisting of a time piece, a lateral recess, which accommodates the u-shaped link (3, 4) located at one end of the band, and the other end of the band being rigidly attached, i.e., the end is cannot be removed from the pin on the plate (1). Williams also discloses printed matter, i.e., the numbers on the watch dial, on the rigid plate.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3677

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 3 and 4 have been rejected under 35 U.S.C. 103(a) as being unpatentable over Williams in view of Studer, 5649381.

Williams fails to disclose printed matter that identifies a medical condition of the wearer.

Studer discloses a watch that identifies a medical condition of the wearer. This medical information about the wearer provides emergency response personnel with the necessary information to better treat the wearer.

It would have been obvious to a person having ordinary skill in the art to have included medical information about the wearer of Williams' bracelet in order to provide emergency response personnel with the necessary information to better treat the wearer.
